

Alloy wheel CASSIOPEIA

3V0 071 498B 8Z8

ŠKODA Superb (3V)

Material: Light metal alloy

Colour: Silver Metallic

Design | Quality | Durability

The casually **elegant Cassiopeia** wheels will make your ŠKODA Superb shine. These wheels feature favourable mass distribution which results in reduction of inertial forces in the rotating wheel. The car **handles better** thanks to that. All the alloy wheels have passed rigorous **homologation tests** of ŠKODA AUTO to test their **resistance** to corrosion, climatic influences and driving strain. This also applies for the Cassiopeia wheels which are protected by a layer of extremely hard, heat-resistant paint. These 18-inch wheels of ten-stoke design are a shiny example of **quality, functionality and aesthetics**. The possibility of fitting the Cassiopeia wheels onto your car needs to be verified in your car registration card as they are not applicable for all specifications.
